

Determining your Basic Level of Church Health.

The following survey is intended to be used with your leadership team or core group to gauge your churches basic health for the purpose of discussion and planning of next steps. It's based on Outreach Canada's Ministry Fitness Check which is part of the assessment phase of the Vision Renewal Process.

Scoring the survey:

1 = not true 2 = somewhat untrue 3 = somewhat true 4 = very true

Category	Description	Score
Sunday Service	Our Sunday service is effective and relevant in the lives of our church community.	
Evangelism	We have an effective strategy for reaching our community for Christ.	
Fellowship	We have a strong sense of connection with each other in the body.	
Discipleship	Spiritual growth of believers is intentional and effective.	
Equipping	We as a church community are well trained for our unique ministry assignments.	
Programming	The programs of our church are designed to meet the felt needs of the congregation.	
Planning	Our church experiences positive movement towards clear goals and objectives.	
Organization	Our church has an effective structure that is organized to help us accomplish our mission.	
Service	Our church community has plenty of opportunity to be involved in ministry.	
Prayer	Our church has an effective prayer emphasis that positively impacts our growth.	
Facilities	Our facilities are adequate to meet our current ministry needs.
